

Homophones printable worksheets 4th grade

A homonym is a word that is pronounced in the same way as another word, but has a different meaning. The way the word is used in a sentence can help you to decide its meaning.

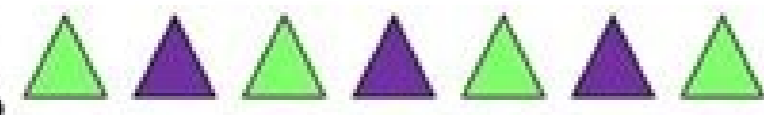

Read the sentences below. Choose the word that should be used in the sentence.

- The _____ hopped into the woods.
(hare, hair) 
- The pumpkin lady put the pumpkins in the _____.
(hay, hey)
- Minna went into the attic and the _____ was musty.
(scent, sent)
- The _____ stood by the pond drinking the water.
(deer, dear)
- There was music in the _____.
(heir, air) 
- Queen Elizabeth was an _____ to the throne.
(heir, air)
- The first ingredient put into the cake recipe was _____.
(flower, flour)
- Busy walked down the _____ sadly.
(isle, aisle) 
- Petunia did not _____ a thing for her flowers except water.
(need, knead)
- I am sad that he is gone because he was so _____ to me.
(dear, deer)
- I wonder if she got the letter that I _____ to her.
(scent, sent)
- Buddy the baker had to _____ the dough before he baked it.
(need, knead)

Homophones

Fill in the right option in the sentences below.

 - My _____ (deer, dear) sat on the top of her head.
 - My _____ (flower, flour) was covered with chocolate sauce.
 - I don't _____ (need, knead) my hair.
 - There is a _____ (heir, air) in the park.
 - I want the _____ (deer, dear) for my pet.
 - I would like _____ (isle, aisle) from across the city.
 - My _____ (cell, sell) is the best.
 - Could you _____ (knead, need) the bread?
 - My brother likes to _____ (sent, scent) the flowers.

Name: _____

Homophones

Directions: Read the paragraph below. Locate the ten words that are incorrectly used and underline them. Write the words below, then write the homophones that should replace them.

Last summer, I rote a story about a boy who learned to serf. His board was one of his birthday presence. The cymbal on the board is a guinea hen; a type of foul. The boy liked to ride the waves, jumping through the sun's raise. He had many weighs of doing flips. One day he hit a rock, which rubbed off the cereal number on his surf board. He didn't mined, though.

Words That Are Nouns and Verbs Words That Are Nouns and Verbs In this fun worksheet, learners will look at seven words that are both nouns and verbs, then write a sentence for each each part of speech. 4th grade Reading & Writing Finish! Please allow access to the microphone. Look at the top of your web browser. If you see a message asking for permission to access the microphone, please allow. Close Practice recognizing homophones with this printable activity. Students will be asked to read through sentences and circle the number of the sentences that use homophones correctly. Ideal for 3rd - 5th grade, but can be used where appropriate. See or sea? Weight or wait? Sent, scent or cent? English is so confusing sometimes! This printable worksheet focuses on homophones—words that sound the same but mean different things. It's a simple, self-explanatory page that's perfect for a quick review. Homophone Worksheet Download the full-size printable: Homophones Worksheet With Key [PDF] Learn about the differences between the words their, they're and there. Choose the correct word to complete each sentence. 2nd through 4th Grades Decide which sentences use the word your and which ones use the word you're. 2nd through 4th Grades Homograph Worksheets Homographs are words that are spelled the same, but have different meanings. Sometimes they have different pronunciations too. (example: Take a bow. Tie the bow.) Commonly Confused Words We have dozens of worksheets for teaching commonly confused words. These include some homophones, such as too/to/two, hare/hair, break/brake. There are also similar-sounding words, such as affect/effect, further/farther, lay/lie, and many more. Synonyms and Antonyms Learn about synonyms and antonyms with these worksheets. Improve your students' math skills and help them learn how to calculate fractions, percentages, and more with these word problems. The exercises are designed for students in the seventh grade, but anyone who wants to get better at math will find them useful. The sections below contain two-word problem worksheets for students, in section Nos. 1 and 3. For ease of grading, identical worksheets, including the answers, are printed in section Nos. 2 and 4. More detailed explanations of some of the problems are also provided within the sections. Find out what birthday cakes, grocery stores, and snowballs have in common with these fun word problems. Practice calculating fractions and percentages with problems such as: When the birthday cake was about to be served, you were told you could have 0.6, 60%, 3/5, or 6%. Which three of the choices will give you the same size portion? Explain to students that the correct answer is .6, 60%, and 3/5 because all of these equal 60 percent, or six out of 10, or 60 parts out of 100. By contrast, 6 percent means just that: only six pennies out of 100, six parts out of a 100, or six tiny slivers of cake out of 100. Find the solutions to the word problems that students tackled in the first math worksheet. The second problem, and answer, state: Problem: 4/7 of the birthday cake was eaten on your birthday. The next day your dad ate 1/2 of what was left. You get to finish the cake, how much is left? Answer: 3/14 If students are struggling, explain that they can easily find the answer by multiplying fractions as follows, where "C" stands for the portion of cake that is left. They first need to determine how much cake was left after the birthday Then they need to see what fraction was left the next day after dad gobbled up some more of the cake: $C = 3/7 \times 1/2 = 3 \times 1 / 7 \times 2 = 3 / 14$ So 3/14 of the cake was left over after dad had a snack the next day. Have students learn how to calculate a rate of return and how to divide a large area into smaller lots with these math problems. To help students, go over the first problem as a class: Sam loves basketball and can sink the ball in the net 65% of the time. If he takes 30 shots, how many will he sink? Explain to students that they simply need to convert 65% to a decimal (0.65), and then multiply that number by 30. Find the solutions to the word problems students have tackled in the second math worksheet. For the first problem, demonstrate how to work out the solution if students are still having difficulty, where "S" equals shots made: So Sam made 19.5 shots. But since you can't make half a shot, Sam made 19 shots if you don't round up. Normally, you'd round up decimals five and greater to the next whole number, which would be 20 in this case. But in this rare case, you'd round down because, as noted, you can't make half a shot. Copyright © 2021 K5 Learning A homophone is a word that is pronounced the same as another word but has a different meaning. There are many homophones in the English language. Some homophones are more common than others. Some common homophones are: to, two and too / there, their and they're / you and you're. It is important to learn the meanings of homophones for they can be confusing since they sound the same but have different spellings and meanings. Use our homophones worksheets below for extra homophones practice. Here is a graphic preview for all of the homophones worksheets. Our homophones worksheets are free to download and easy to access in PDF format. Use these homophones worksheets in school or at home. Grades K-5 Homophones Worksheets Here is a graphic preview for all the kindergarten, 1st grade, 2nd grade, 3rd grade, 4th grade, and 5th grade Homophones Worksheets. Click on the image to display our PDF worksheet. Grades 6-8 Homophones Worksheets Here is a graphic preview for all the 6th grade, 7th grade and 8th grade Homophones Worksheets. Click on the image to display our PDF worksheet. Grades 9-12 Homophones Worksheets Here is a graphic preview for all the 9th grade, 10th grade, 11th grade, and 12th grade Homophones Worksheets. Click on the image to display our PDF worksheet. Writing Homophones are words that sound the same but are spelled differently and have a different meaning. Homographs are words that sound the same and are spelled the same but have a different meaning. In this language arts worksheet, your child will fill in the missing homophones to complete pre-written sentences and then write sentences to convey each homograph's alternate meaning.
